Online profile: [LinkedIn](#)

I'm a 3rd year PhD student, currently working in the [FlowersAI & CogSci lab](#) in the INRIA research institute in Bordeaux (France). My thesis project focuses on the development and evaluation of school interventions to promote curiosity-driven learning in primary to middle school children, by leveraging metacognition. In this work, we adopt a systemic approach towards school, specifically including teachers for participatory design of our interventions.

Keywords : curiosity - education - learning - creativity - metacognition - children - EdTech

EDUCATION

PhD, Cognitive Science | University of Bordeaux ; FlowersAI & CogSci Lab, INRIA Research Institute
Bordeaux, FR
2023-today

Master's degree, Cognitive Science | University of Bordeaux, FR
2021-2023

Dual bachelor's degree, Psychology & Biology | University of Poitiers, FR
2017-2021

RESEARCH & TEACHING EXPERIENCE

Teaching Assistant | Cognitive Science department, University of Bordeaux, FR
September - November 2024, September - November 2025
Master's degree course on project management in IT

Teaching Assistant | Cognitive Science department, University of Bordeaux, FR
January - March 2025
Bachelor's degree course on web accessibility

Research Intern | FlowersAI & CogSci Lab, INRIA Research Institute Bordeaux, FR
February - June 2023

Collaboration on an applied research project implementing a metacognitive digital intervention to foster curiosity-driven learning in primary school children.

Supervisors: R. Abdelghani, PhD ; H. Sauzéon, Pr.

Research Intern | BPH Lab, Inserm U1219, Bordeaux, FR
April - May 2022

Systematic literature review on the use of virtual reality in the domain of industrial architectural design in ergonomics.

Supervisor: S. Morélot, PhD

Research Intern | CeRCA Lab, CNRS UMR7295, Poitiers, FR
May - July 2021

Collaboration on evaluating user experience e.g. visual complexity of web pages, with the use of physiological measures, such as heart rate and eye tracking.

Supervisor: N. Louveton, Pr.

ORAL PRESENTATIONS —

Desvaux, C., Sauzéon, H. & Oudeyer, P.-Y. Teacher-led metacognitive training of children's curiosity in schools. EARLI SIG 16 Conference 2026, Clermont-Ferrand, FR

Desvaux, C., Sauzéon, H. & Oudeyer, P.-Y. Curiosity as a ZPD window for self-regulated learning. ISCAR Southern Europe and Middle East Conference 2025, Barcelona, ES

POSTERS —

Desvaux, C., Abdelghani, R., Sauzéon, H. & Oudeyer, P.-Y. (2024) Kids Reflect: a digital metacognitive training for curiosity-driven learning. Scientific Seminar for Junior Researchers in Education, 3-5 July, CNRS UMR7295, Poitiers, FR

ADDITIONAL ACTIVITIES

SCIENCE OUTREACH —

Interview, topic: *Use of digital tools for learning in the classroom*  | Curieux ! Live Media, FR
23 October 2025

Interactive talk, topic: *Curiosity and metacognition in the classroom* | Cogni'Classes, AFSC Association, FR
15 October 2025

Talk and workshop, topic: *Learning to learn with curiosity* | Learning Show, Canopé Network x INRIA Academy, Rennes, FR
13 October 2025

Workshop, topic: *Learning to learn with curiosity in the age of genAI* | Academic Day for Innovation, Canopé Network, Academy of Poitiers, FR
28 August 2025

Talk, topic: *Learning to learn with curiosity in the age of genAI* | INSPE, University of Bordeaux, FR
13 March 2025

Presentation and workshop, topic: *Learning to learn with curiosity* | Academic School for Continuous Teacher Education (*translation: École Académique de la Formation Continue, E AFC*), Paris, FR
17 & 19 December 2024

EXTRACURRICULAR & SUMMER PROGRAMS —

Hacking Cognition, led by Laura Dugué, Pr. | Paris Cité University, CNRS
July 2022

Hackathon in Cognitive Science. Project topic: *Uncooked* — a web extension to help the user identify fake news and enhance vigilance on sensationalist headlines.

Disrupt Campus program | University of Bordeaux
January - June 2022

Project management program for innovation and digital transformation.

Cognitive Science Forum | Cognitive Science Association, Île-de-France
2023, 2024, 2025
